Subject: RE: NAS Review of Advances Made to the IRIS Process

Good morning,

I wanted to let you know that the NAS IRIS workshop page was updated with information about committee membership, and a link for submitting public comments: <http://dels.nas.edu/Study-In-Progress/Review-Advances-Made/DELS-BEST-17-03>. The biographies of the committee members are posted to the right of the page, under 'About this Study.' I will let you know when the agenda has also been posted. Preliminarily, the agenda will entail presentations, an interactive 'genius bar' for tools demonstrations, and a poster session. We will be test-driving some of these materials at the meeting of the Society for Risk Analysis meeting in two weeks.

Please let Kris or me know if you have any questions.

Tina

Subject: NAS Review of Advances Made to the IRIS Process

Good Morning,

As you see below, the public announcement of the NAS IRIS workshop just came out. The roster of the committee will also be released within the next day or so. The workshop will be held February 1-2, 2018 at the NAS facility on Constitution Avenue. This is a public workshop and the attendance is expected to be high.

Thanks,

Tina

Upcoming Workshop: Review of Advances Made to the IRIS Process

A committee of the National Academies of Sciences, Engineering, and Medicine will hold a workshop on **February 1-2, 2018, in Washington, DC**, to review advances made to the Integrated Risk Information System (IRIS). At the request of the US Environmental Protection Agency (EPA), this committee will assess changes that have been implemented (or plan to be implemented) by EPA in response to recommendations made in previous National Academies reports, such as *Review of EPA's Integrated Risk Information System (IRIS) Process* and *Review of the Environmental Protection Agency's Draft IRIS Assessment of Formaldehyde*. This public workshop will serve as a venue for EPA to present its changes to the IRIS program and to provide an opportunity for stakeholder input on the changes to the program. The committee will base its assessment on information received at this workshop. Registration is required to attend.
